

# MINIX

## MINIX H1 HDMI to HDMI Wireless Display Dongle

## Featherweight

Unleash Connectivity, Everywhere You Go!

## Main Features

### Effortless Setup

Enjoy a hassle-free experience with our plug-and-play design—no drivers or apps required. Skip the tedious Wi-Fi logins; our device operates independently, ensuring a direct and reliable connection.

### Crystal Clear UHD 1080P60Hz

Experience stunning video quality with ultra-high-definition resolution at 60Hz, ensuring sharp and vibrant visuals. Enjoy swift and lag-free transmission with our 5GHz connection, ideal for high-bandwidth activities like gaming and video streaming.

### Flexible Display Options

Choose between mirror or extend mode to suit your needs, whether it's duplicating your screen or expanding your desktop for enhanced productivity.

### Seamless Entertainment

Stream Netflix, Disney+ and other content seamlessly, maximizing your home entertainment experience.

### Extended Range

Transmit video signals up to an impressive 50 meters/164 ft, providing flexibility in your setup and eliminating the need for cumbersome cables.

### Instant Swap and Share

Effortlessly switch between devices and share content in real-time, whether it's for teaching, entertainment, office collaboration, or home improvement projects.
